curricular/experiential%20learning%20programs

Application Deadline: September 13, 2026, at 11:59 PM ET

The TechAccel Program is one of the McGill Engine's key co-curricular/experiential learning programs. It supports early-stage student ventures with Lean Startup Methodology training (https://www.mcgill.ca/engine/funding-programs/students/techaccel-program/empowered-startups-platform), 1:1 business mentorship (https://www.mcgill.ca/engine/funding-programs/students/techaccel-program/techaccel-mentors), and project funding. The program runs three times a year during the Fall, Winter, and Summer semesters, each cohort is about 12 weeks long. We help student technological innovators make a positive impact on the world!
